HUNDO METHODIST CHURCH.

Shan M. Hull Pastor.

This coming Sunday will be the last Sunday before the pastor leaves for the meeting of the Annual Conference which convenes in San Antonio Wednesday, Oct. 30th. We are planning to make next Sunday a day in which we shall see many of the membership of the church present, most especially for the morning All kinds of drinks, at CARLE'S preaching hour. We regret very much that there are a goodly number of our people who seldom ever attend church, and as it is with other churches, there are a few who never John H. Schweers paid this office attend the services of the church. Regardless of what you have done or have not done in regard to attending the services of your church, we are hoping for a rally next Sunday of the entire membership of the church, as far as possible. There is no greater way for a person to show his appreciation for his church, than be regular in attendance upon the Kelvinator electric refrigerator. tf. services of the church.

OF INTEREST TO TAXPAYERS.

In an interview yesterday with Tax Collector L. E. Heath, a representative of this paper was informed that official notice had been received by him from the Comptroller that information apply at this office. 3tc. House Bill No. 6, passed at a recent Roy Schweers, who is attending session of the Legislature, providing discounts for early payment of taxes, has been declared unconstitutional by the State Supreme Court. He will, therefore, be unable to allow the discounts, and all taxes must be paid in full by January 31st, 1936, as heretofore in order to avoid the penalty that begins to accrue on and after February 1st.

Mr. Heath called attention to the facct, however, that the privilege of paying one-half of one's current taxes on or before November 30th entitles the taxpayer to an extension without penalty on the other half of his taxes unil June 30th. Mr. Heath vantage of this method of splitting

MRS. A. H. SCHWEERS HOSTESS.

CHAMBER OF COMMERCE BENEFIT SUPPER.

The Hondo Chamber of Commerce will give a benefit supper at the Rath Building next to the Hondo State Bank on Saturday, Nov. 2nd. Supper will be served by the ladies of the town who are assisting the C. of C. Preparations will be made to accommodate the largest crowd ever to attend a similar event in Hondo. Chili, tamales and beans will form the main items on the menu. Supper will be served from five-thirty o'clock until seven-thirty.

The money raised from the supper will go to pay off the indebtedness on the Plaza Recreation Park, to help finance the buying of a new dump-groud site, and for incidental expenses of the C. of C.

Come out and support your local Chamber of Commerce organization.

(This space complimentary to the Chamber of Commerce.)

QUIHI NOTES.

But his wife looked back from behind him, and she became a pillar of salt. Gen. 19: 26.

For solid reasons the fleeing quartet, Lot and the three female members of his family, were enjoined, Look not behind, neither stay in the plain. The horrifying sight is apt to paralyze your mobility, the gathering gases and fumes will poison your system and kill. With reckless disregard, Lot's wife, for reasons of her own, demured and lagged, and paid with her life. She became a pillar of sait. And here is the first of that trio of mysterious happenings that so often is mocked and scorned, fumed and foamed at by a self-as suming horde of would-be criticsthe other two items being Baiaam's ass and Jonah's whale. Without go- . ing into detail of the last two now, we merely assert that the sources of all three narratives are above reproach, not so those critics, and all * three are backed up by no less an | * in life, but they fail to pull the * * authority than Christ himself, with- | * trigger .- J. B. Lawrence. * out fear of gainsay by carpers and . cavilers. So let them "cut the * · cackle". Shake off all other arrangements and come to the house of the Lord.

After extensive preparations, the holy act of confirmation was conferred upon Mrs. E. Hartman and Mr. John Schulte in the presence of the vestry and the members of their family and friends, last Sunday morning. A gladsome affair. We are ready for an equal service to those contemplating the same course. Say the word.

Announcements for October the 27th: Reformation service at New Fountain 10 A. M., preceded by the confessional. Holy communion. Evening service at 7:15, also preceded by the confessional. Holy communion. Come and hear, all ye that fear God. Ps. 66: 16.

MRS. McDOWELL HONORED.

Mrs. M. L. McDowell, who before her recent marriage was Miss Della Mae Adamcik, was honored with a bridge party Saturday afternoon, with Mrs. F. H. Schweers as hostess. The home was decorated with varieties of roses and rosebuds. Receiving the guests in the reception hall were the hostess and the honoree, as sisted by Miss Perry Chamberlain, who greeted the guests in the dining room.

After five games of bridge, prizes were awarded Mrs. McDowell, as honoree, Mrs. Fletcher Davis for high score, Mrs. McDowell for cut, and Miss Mary Ruth Wilson for holding the traveling box at the end of the playing.

Refreshments of molded fruit salad, saltines, potato chips, cookies and coffee, were served.

The guests were Mesdames O. H. Miller, R. J. Noonan, W. H. Smith, O. B. Taylor, L. J. Brucks, L. E. Heath, Earl Starnes, Fletcher Davis, Robert Kollman, W. H. Case, Alfred Schweers, J. M. Finger, Rudolph Rath, Volney Boon, M. I. Broxton and J. G. Barry, and Misses Lillian Brucks, Mary Ruth and Thelma Wilson, Lucy Richards, Frances Ann Harris, Catherine Claypool, Anne Davis, and Perry Chamberlain, and the honoree, Mrs. McDowell.

A THOUGHT.

Many people have a good aim

-000-Tomorrow's corn and hog control

The vast governmental spending the belief that industry would be stimulated, purchasing power would be increased, and unemployment reduced within a relatively short time. Then government was to step back the crowded evening attendance to into the job of government, leaving

Granting that the theory was honestly believed in by those who adoptworthy of the day. A number of ed it, they cannot be blamed for tryfriends did not make their appear- ing what they thought right and ance, for good reasons, we hope, proper. But, as time goes on, it be-Their contributions are still in order comes increasingly obvious that the and still in time. The blessing is idea of "spending" our way to proseprity has been a failure. Untold billions have been spent. The federal debt, to say nothing of state and local detbs, has reached the highest

> How dare we neglect spending policy had failed only in its main objective—the solving of the unemployment problem. But, in addition, it is making it increasingly difficult to ever bring back normal employment—because of the influence of a staggering debt and vastly increased taxes on the only source from which normal employment can come, industry. Many business enterprises are today doing more business than at any time since 1929-yet are earning no additional profits, because of the tax bills they must meet. The inevitable result is to frighten investors, divert money from productive to non-productive channels, such as tax-free government bonds—and keep unemploy-

ment at peak figures. To remedy this situation governmental costs must be cut to the bone, and an aggressive budget-balancing program adopted. That is the course of real statesmanship—and it is the only course that can save America from eventual financial ruin.-Industrial News Review.

WHO OWES YOU A LIVING?

Millions of people are being educated in our country today to believe that someone owes them a living. The laws of nature do not seem to recognize this doctrine.

Just go out into prmitive country

and see who owes who a living-you will soon find that your existence depends on your ingenuity and initia-Governments were organized to go nature one better and make it a lit-

tle easier to live and to take care of

the helpless whom nature would otherwise unceremoniously remove. But today millions of perfectly healthy, able-bodied people are being taught to loaf at the expense of the savings of others, instead of to rustle

Such a system can endure only so long as there are stored-up savings to confiscate, then the inexorable laws of nature will prevail.

for themselves.

An epidemic of pests completely devours a tree or a field of grain and then the pests die. Nature does not owe them a living.

The same thing can happen to governments and to the human being who make the governments if the eat up their capital to maintain idleness, they will eventually find that nature refuses to hear their demands that "someone owes them a living".

This may not be a pleasant-sound ing philosophy, but it is a fact which honey-coated, political cure-alls try to hide.-Industrial News Review.

DOCTORS KNOW

Mothers read this:

quantity tomorrow; less each time, until bowels need no help at all.

Why do people come home from a hospital with bowels working like a well-regulated watch?

The answer is simple, and it's the answer to all your bowel worries if you will only realize it: many doctors and hospitals use a liquid laxative.

If you knew what a doctor knows, you would use only the liquid form. A liquid can always be taken in gradually reduced doses. Reduced dosage is the secret of any real relief from constipation.

Ask a doctor about this. Ask your druggist how very popular liquid laxatives have become. They give the right kind of help, and right amount of help. The liquid laxative generally used is Dr. Caldwell's Syrup Pepsin. It contains senna and cascara - both natural laxatives that can form no habit, even in children. So, try Syrup Pepsin. You just take regulated doses till Nature restores regularity.

TELEPHONE PEOPLE THEIR TROUBLES.

District Manager Harry Martyn of the Southwestern Bell Telephone Company was in Hondo Tuesday on business for his company. He thinks business generally is improving, but Mr. and Mrs. George Christilles finds that there are always troubles and Mrs. L. G. Gutzeit were visiting to be anticipated and guarded make trouble shooter's task an easier relatives and friends at Castroville against. Some times these troubles one. are due to one cause and again to Mrs. Jack Lacy and Mrs. Richard others. The next one anticipated is Reily from Hondo were visitors here seasonal and in an interview with a needay in the interest of "Clean-up representative of this paper. he said:

December 1st, local hunters will head for waterholes-begin their annual foray against the mourning e. Also, December 1st, telephone line repairmen will head for nearby long distance lines-broken by gun-

Every year some hunters shoot at oves perched on telephone lines. Sometimes they hit doves, sometimes they hit lines. This presents a difficult problem for maintenance department of Southwestern Bell Telephone Company. The company asks for cooperation of local nimrods in ficient service.

Wire breaks from gunshot more frequently during dove hunting season than at any other time of year. In Southwest Texas, during 1934, Spindletop were visiting Mrs. Helena troubles on long distance lines were caused by wires being shot down. Approximately 75 per cent of these troubles occurred during the last four months of the year-in dove hunting season. During the first month following opening of dove season last year, 107 cases of long distance line trouble were reportedmore than ever before in history of telephone long distance operations in Southwest Texas. Often shooting into telephone lines doesn't result in a break at once, but does partially

Do You Ever Wonder

Whether the "Pain" Remedy You Use is SAFE?

> Ask Your Doctor and Find Out

Don't Entrust Your Own or Your Family's Well - Being to Unknown Preparations

THE person to ask whether the preparation you or your family are taking for the relief of headaches is SAFE to use regularly is your family doctor. Ask him particularly about Genuine BAYER ASPIRIN.

He will tell you that before the discovery of Bayer Aspirin most 'pain' remedies were advised against by physicians as bad for the stomach and, often, for the neart. Which is food for thought if you seek quick, safe relief.

Scientists rate Bayer Aspirin among the fastest methods yet discovered for the relief of headaches and the pains of rheumatism, neuritis and neuralgia. And the experience of millions of users has proved it safe for the average person to use regularly. In your own interest remember this.

You can get Genuine Bayer Aspirin at any drug store — simply by asking for it by its full name, BAYER ASPIRIN. Make it a point to do this - and see that you get what you want.

You're The Loser

WHEN you allow Headache, Neuralgia, Muscular, Rheumatic, Sciatic or Periodic Pains to keep you from work or pleasure. You can't go places and do things when you are suffering-and the work or good times

won't wait for you. Why allow Pain to rob you of Health, Friends, Happiness, Money?

DR. MILES ANTI-PAIN PILLS have been used for the relief of pain for more than forty years. They taste good, act quickly, do not upset the stomach, nor cause constipation, leave no dull, depressed feeling.

Thousands have used them for twenty, thirty, forty years, and still find that nothing else relieves pain so promptly and effectively. Why don't you try them? Once you know how pleasant they are to take, how quickly and effectively they relieve, you won't want

You too may find quick relief. Why wait forty minutes for relief when Dr. Miles Anti-Pain Pills will relieve you in ten to twenty minutes?

As a household remedy I have never found anything that equalled Dr. Miles Anti-Pain Pills. Mrs. Silas D. Keller, Penfield, Pa. I never found anything that was so good to stop pain as Dr. Miles Anti-Pain Pills. I have told many about them and I find they are all using them.

Mrs. Martha Lacy, Davenport, Iowa

Your Anti-Pain Pills have been a wonderful help to me. I have used them for three years and always keep them on hand.

Mrs. E. Pierce, Lapwai, Idaho
I have used quite a lot of Dr. Miles Anti-Pain
Pills. They are fine pills to stop pain.

Mrs. J. L. Kester, Shickshinny, Pa.

supplies have been out of balance. Every Corn-Hog Producer To Get Vote in AAA Poll.

Every eligible corn-hog producer in Medina County, as well as each Seventh, it is likely that the gradu- of the 1000 contract signers, is enunder way since 1933 will continue, hog referendum Saturday, October

All farmers have a stake in the Eighth, a considerable increase in portant to get the judgment of every hog production above the present eligible producer on the matter, he

All operators and owners, or their

official representatives, of farms which produced corn or hogs in 1935 may vote whether they signed cornhog contracts in past years or not. Community committeemen will determine the eligibility of voters. Each eligible person is entitled only to one vote regardless of the number of farms he may own or operate, no mattee where located.

The corn and hog industry, on the one hand, has a choice of continuing a production adjustment program desiged to hold corn acreage down to a safe, desirable level and preventing an excessive increase in hog num-The alternative is to release control both on corn acreage and hog production at the risk that during the next three years the increase in hog production from the 1935-36 level will be greater than for any previous period in the country's history with consequent disastrous hog

In the years before the AAA, every corn-hog producer would have had to deal with this prospect in his own individual way, with no means of guessing what the industry as a whole intended to do, and with no national action to meet the problem. Now with their production control ssociations and their voluntary contract system, farmers as a whole are in a position to know what other farmers are going to do and to cooperate to keep supplies and live-

SAN ANTONIO LIVESTOCK. Monday, October 21.

(Federal-State Market News Service) The San Antonio livestock market opened the week Monday with price levels fully steady in all departments. Supplies in the cattle division were light and consisted of 270 cattle and 392 calves Shipper and order buyers were active and trading was brisk. Good to choice quality was absent in most offerings and best calves and light yearlings were only good enough to cash up to \$6.00; medium grades moved readily at \$5.00 to \$5.75 with culls and common grades at \$3.25 to \$4.50; common to medium lightweight grass steers, \$5.00 to \$5.50; cutter kinds down to \$4.00; common to medium grade cows, \$3.25 to \$4.00, with few good kinds at \$4.25; low cutters and cutter cows, active at \$2.00 to \$3.25; medium to good stocker and feeder calves and light yearlings were active, mostly on shipper account, at \$4.50 to \$5.50.

Hogs, 73 head; market opened steady and active at last week's close of \$9.40 for best 175-250 pound truck offerings; on rail loads arrived; 250-350 pounds, \$8.75 to \$9.00; 140-160 pounds, \$8.25 to \$9.00; packing sows, \$8.00 to \$8.40; slaughter and feeder pigs active at \$7.25 to \$8.00.

Sheep, 123 head; goats, 108 head; unanimous protest against the rule no lambs on sale; shorn and wooled aged wethers, steady at \$3.50 to \$3.75; few culls out at \$3.00; goats slow at \$1.50 to \$2.25, mostly in nort fleece. Receipts shown are from 6 A. M.,

Saturday, to 6 A. M., Monday.

AUTO RACES.

The time trials and Class A events at the auto races on the 13th here were taken by Gonzales in his speedy DR. TAYLOR, DENTIST, OF- mount and he was leading in the feature event when he wrecked by crashing through the fence without injury to the ariver. Grady Sexton won the sweepstakes and finished second in the time trials as well as the Class A race. Freedy kuth crossed the tape first in the handicap match race and took second money in the big race. Luther Day drove a consistent race throughout and won the class B race and was awarded third money in the feature. The Gonzales brothers, Ernest and Richard, were matched in a special race which proved to be one of the most thrilling on the program. After running neck and neck for five laps Richard finally managed to beat his result seemed to be unsatisfactory to both and it is more than likely that they will be matched again to settle their differences.

The Mathematics Club of Our Lady of the Lake College was organized Monday, October 21st. Of the officers elected, Miss Laurinda Rothe was chosen vice president. She is the daughter of Mr. and Mrs. Arthur Rothe of D'Hanis and is a Jun-

ior at the College. A. J. Graff was one man who wel-

comed the drop in temperature Wednesday. Army worms or some other worm pest have been depredating on his young oats, his rape and his turnip patch, and he hopes the cool weather will check them. Mr. Graff planted rape for winter grazing for his pigs. We are told that hogs often show a preference for rape over small grain pasture.

At the first meeting of the senior class of Our Lady of the Lake College, Oct. 7, Miss Doris Haegelin, of Riomedina, was elected parliamentarian and Miss Marion Brauer, of Del Rio, sergeant-at-arms. Miss Haegelin is the daughter of Mr. and Mrs. Edmund Haegelin of Riomedina. Miss Brauer is the daughter of Mr. Owing to the lack of publicity, the and Mrs. Louis Brauer and visited

ord V-8 cars for 1936 were radio installed upon special order. and seven in Can- doy new cars were publicly

tment of the interiors and three shaft, and teeth of the worm and

changes. The 85-horse-power V-8 engine, of which more than 2,000,000 provements. are now in operation, is unaltered.

Of the three principal chassis improvements, one-improved steering is aimed at greater ease and safety of operation. Two others tend to greater comfort. One is the use of new steel wheels which lessen the unsprung weight and thus provide greater riding comfort. The other is an improved transmission using quiet helical gears—formerly used only in second and high speeds—in

all forward speeds and reverses. A new front-end treatment gives added distinction to the body lines. The hood is longer, extending gracefully over the attractive new radiator grille. With its vertical slots and more accentuated "Vee", as well as its smoothly rounded lower edge which blends with the streamlined curve of the inner portion of the fenders, the grille contributes a new note of smartness.

Fenders are streamlined, a wide inward flare giving them an imposing appearance. Louvres are of new design. Horns are now recessed in the fender aprons back of small round grilles beneath the streamlined headlamps.

The welded steel body is low and wide, with flowing rear quarter lines. Finish is a Ford-developed baked enamel. There are five body colors, Washington blue, gray Vineyard green, Cordoba tan, gunmetal and black, of which the first two are new. De luxe body types are available in any of the five colors, with fenders matching and wheels of new design in a harmonizing color. Cars without de luxe equipmet come in black or gunmetal, with fenders matching the body color and black wheels.

Thirteen body types are available, ten with de luxe appointments and three without. These are:

De Luxe: Three-window coupe, five-window coupe, roadster with rumble seat, phaeton, cabriolet with rumble seat, convertible sedan, Tudor sedan, Fordor sedan, Tudor touring sedan and Fordor touring sedan.

Without de luxe equipment: Fivewindow coupe, Tudor and Fordor se-

Interiors, especially luxurious in the de luxe types, reveal a distinctively modern treatment. The color motif is a rich gray, with which the taupe of the upholstery fabrics harmonizes. Seat cushions are deeply pillowed and set off with new piping. In de luxe types various uphoistery options are available. Recessed arm rests give added elbow room in the Fordor and Fordor touring se-

All instruments are of new design to conform to the modern effect of the new gray metallic pyroxylin instrumental panel. De luxe car panels are fitted with 100-mile speedometer, with trip mileage recorder; ammeter, water temperature indicator, electric fuel gage and electric oil gage, as well as cigar lighter, tilting ash tray and glove compartment. The ash tray may be removed and a Ford

gineering summarize the principal It is estimated effort required in improvements. There are no radical steering has been reduced more than 25 per cent, as a result of these im-

> Gear shifting is made easier by regear shift lever.

The number of anti-friction bearings in the chassis is increased to 27 from 25.

The new steel wheels consist of a drawn steel spoke section electrically welded to the rim, forming a single steel unit of exceptional strength. Each wheel is nearly five pounds lighter than the former steel spoke wheels. The wheel is completed by a 12 1-2-inch hub cap with polished rustless steel center carrying the V-8 insignia. Tires are again 6.00 by 16

inches, carrying 30 pounds pressure. Although no changes except in manufacturing fineness has been 2 made in the V-8 engine, the cooling lor. system has been improved and its capacity increased to provide adequate cooling under exceptionally severe conditions.

Aside from these improvements, the chassis is unchanged. Its most important feature is the proper combination of three engineering principles to provide what is termed the

chanical four-wheel brakes with 186 full torque-tube drive; three-quarter

The Dorcas Class of the Baptist S. enjoyed a most interesting meeting at the church on Wednesday, Oct. 16th, with Mrs. Horace Crow ducing the length of travel of the and Mrs. Toby Taylor as co-hostesses. Decorations of cosmos in tall floral baskets were used in carrying out the motif of the season.

A business meeting was presided over by the retiring president, Mrs. Willie Crow, after which the officers for the new church year were installed. Miss Lucy Richards in a most impressive manner installed the following officers:

Teacher-Mrs. Jim Duncan. Assistant Teacher-Mrs. Will

President-Mrs, E. E. Kollman. 1st. Vice Pres .- Mrs. Will Crow. 2nd, Vice Pres .- Mrs. Toby Tay-

Reporter-Mrs. Origen Crow. Secretary-Mrs. Newell Woolls. Assistant Secretary-Mrs. Ray

Following the installation a solo, "Jesus Loves Me", was sung by lit-tle Doolie Crow. Miss Lucy Richards bination of three engineering princi-ples to provide what is termed the "centerpoise" ride. These are iniproved spring suspension, correct car balance and proper passenger weight distribution.

Sang a duet, "Sometime, Somewhere", accompanied by Miss Mary Ruth Wilson at the piano. Margaret Other features include a double- Ann Knopp favored the class with drop X-type frame, with X and side two violin solos, "A Negro Spiritual" members forming box sections ex- and a "Spanish Dance", accompanied tending to the end of the frame; me- at the piano by Miss Evelyn Knopp.

ALL MAKES RADIOS REPAIRED.

THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?

What is new about it?

Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.

You may buy a car on minor "talking points"-some specially advertised feature "with the car thrown in"-but, after all, it is the engine you buy when you buy a car. Hence we put the engine first.

Other new points about the car make a long list.

Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.

Ford upholstery - always of sterling quality and excellent taste—is rich and enduring. The appointments of the car have a new touch of refinement. There

is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters, many improvements have been made-Steering is made easier by a new steering gear ratio. The cooling system circulates 51/2 gallons of water through a new, larger radiator. Natural thermosyphon action is assisted by two centrifugal water pumps. New style hood louvres permit a rapid air-flow around the engine.

Easier, quieter shifting of Ford gears -The gear shift lever now travels a shorter distance.

The two qualities you want in brakes - Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

Safety - as always - in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8 - driver and car easily get on terms of good understanding with

An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way, this 1936 Ford V-8 - the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.

ABOUT THE ORCHARD

The attached is a talk made by J. E. Fitzgerald at the Texas Nurserymen's Association at Austin.

If I make this public speech it will be about the second one I ever made in my life. I am handicapped by about two things. In the first place, I cannot memorize anything, and in the second place my legs go weak when I try to make a public speech. I remember when I was a little boy going to my first school, I put in two weeks trying to memorize "Mary had a little lamb". When I got up to say that speech it seemed my trousers began to get too big for me. Pretty soon they felt so big that they hardly touched anywhere and in another moment they were as big as an army baloon and the "Mary had a little lamb" part had deserted my memory entirely.

I cannot discuss new varieties very much but can tell you about the ones that are new with me.

I believe I will start on the apple first as they are one of our most profitable fruits up in our country. To be brief, the King David is far ahead of all other apples as a money crop in Erath County. It is intensely red. Does not blotch so badly and is fine for cooking and fine for eating fresh when we allow them to get ripe. But we sell them all for cooking before they really get ripe. Our next best apple is one called Smoke House. It is not a high colored apple but bears abundantly. licious does well in Erath County.

The apples are good to eat by the time they are grown and when fully ripe are very excellent and bring good prices on the market. The two new apples, Golden Delicious and Rich Red or Star King, have been Star King is about three weeks earlier than the common Delicious. It begins to bear earlier than the Delicious, but as the trees get older the apples get smaller. The Golden Delicious is just not the right color is all. It is not a good cooker and it is hard to sell yellow apples for eating raw. It bears two years after being set. Some are reporting good results with it but I cannot get good results. One has to try all kinds of fruit before he can tell just what is the best. A man who is growing Winesap may think he has the best apple in the world because he has never tried out such a kind as Smoke House. This holds good all along the

A man with an Elberta peach orchard may think Elberta is the finest of all peaches because he has never tried a kind like Golden Jubilee or Hale Haven. And there is Golden Jubilee. It comes in just before Fair Beauty. It is a long peach, yellow, apricot flavor. Then the Fair is a tolerable new peach. Some people call this the very best of all peaches, but I get letters from others who are digging it up just like I am digging my Wheeler orchard up and planting to the South Haven because I have found the South Haven is better. den Jubilee will bear and is better, a pocket knife. Early Rose. crop practically every year. crop practically every year. It will go on the north side. But he would be too small were it not for seems to not like real healthy wood. the fact that it comes in exactly when there are no other peaches and sells well. You have heard how the hot cakes sold, the Early Rose sells

And after Early Rose comes the South Haven. The best peach of that season I have so far found. It may never haul real well but it makes up in being good looking, fine for cooking. The The Hale Haven is said to be a cross between the J. H. Hale and the South Haven. It looks just exactly like the J. H. Hale and comes in two weeks before the Elberta. It will pollenate itself making it one of our finest peaches.

June Bud trees set this spring bore as many as five big peaches this year, | does not get the difference in the

That indicates it may be a good one and I feel sure it will be if it does not develop some vice.

Many years ago I get a bunch of trees from the Federal government to try out. Among them was a peach said to come from New Zealand. It looks like an Elberta except it is lighter flesh. It may be a little smaller than Elberta but it is one of the surest of all peaches to bear. have a plum that came at that time, a heart-shaped plum very much like Waneta, but one of the most beautiful of all plums and the highest quality. It had no name, just a number, and I have forgotten the number. It is going to be a rival of the Bruce and America.

I do not have any new grapes but in pears I have the Douglas, likely the coming pear. It is inclined to overbear and will have to be thinned more than some people will want to thin it. frees in the nursery row will bear. A tree set out in the field will bear the second year set. It is a fine preserving fruit and pears will get ripe on the tree and are neady as good as Bartlett, Some one has asked about the Lincoln pear. It is pretty good if the pears would not blow off the trees. The stems are long and they just cannot resist the hard wind. This is about all the new fruits I have time to mention though I have tried out dozens. Funny to say the Honey and other Southern varieties of peaches are nearly a sure crop with me but the curculio usually

gets the crop. This season has not been a real test season for all kinds of fruit have done exceptionally well.

-ATO-

This is the time when the tree borfully tried out here on my place. The er gets busy and thousands of people want to know what to do about The borer is like many other bugs sent to destroy and help destroy the weakly. If a tree is growing on Bermuda or is suffering from drouth this sawyer, as they are often called, gets in his work. The tree borer is the child of a long bug. This bug has a couple of what we would call whiskers for short but the bug-ologist cans them antaena. He says the bugs use them to feel with, but how the socalled bugologist can tell just what a bug does feel with is more than I can figure out unless the bug man in some way has lived as a bug in ages They often say this bug is past. gray but I have found them in several colors. They are nearly an inch long and slim and you can often find them sticking on the bark of a lombardy poplar or cottonwood. If you have a lot of these trees in your yard I would bet that you could find some of those whiskered gentlemen right now. They like lombardys, it seems, better than any other tree, but this is just a guess on my part since I was not a bug in ages past and cannot tell about what they really do like. This bug in most cases lays his eggs right at the ground. But if the tree is sunburned he will lay them along any distance from the ground. The Golden Jubilee because the Gol- You can trace this bug around with He works on the Then just after Wheeler we have the southwest side of the tree as long as This will bear a big the scalded bark holds out, then he But he The remedy is to keep the wood healthy. If you cannot do this then the south side of the tree can be washed with lime and a little, just a little, kresso added. In case the worm is already in the tree, a sharp wire will dislodge him. I knew one man who nailed thin boards on the southwest side of his trees where they were exposed to the sun. This keeps the sun from nearly blistering the trunk of the tree and the borers did not bother. Speaking of the sharp wire, nature has provided a kind of wasp with a sharp anecdote to reach the borers. My little boy says anecdote. He thinks it is more polite to say anecdote than to say tail. He

meaning but that is all right. One of the wonders of nature is how this wasp can tell where the boxer is under the bark of the tree. But men who have watched them say they never make a mistake. In some way they thrust their tails down through the bark and into the worm. Then they deposit an egg in the worm. In a few weeks the borer turns out to be a wasp instead of a bug as his mother intended him to be. Anyhow, if a man could kill all the bugs in the world with one stroke he would likely also kill all the people. For all these things are mutually dependent on each other. The borer turns the useless wood into small powder. This wood becomes fertilizer for other plants. Termites eat fence posts and wood on top the ground and carry it deep into the ground to make soil for other plants to grow in. It is a constant round of nature, one plant or animal tears down so that another plant or animal can live. --ATO-

A few days ago I had a man visit the nursery from near Fort Worth. During the course of his visit we discussed berry plants. He said that he made more off of his berry plants than anything he had this past summer. Only had a row or two but had kept them pruned and cultivated good the summer and fall before. Many growers do not know how to prune berry plants however, it seems that this man did. He also knew what was the best berry as when I asked him what berry he liked best he said so far the Early Wonder had proved to be unequaled. All books that you read on pruning berry vines say cut out the old wood after they bear in the spring. But this wood is not yet dead and it injures the vitality of the vine to cut it out at this time of the year. Also this old wood forms a brace for the plant and keeps the wind from whipping it around in the summer time. When winter cames this old wood is dead and nearly rotted. You can then take a long stiff wire with a hook on the end, somewhat like you fix to catch chickens with, and reach in there and pull out all the old wood with the wire. I never cut any of the green wood We are just ending one of the best fruit years we have had in the past ten in this section. It seems that every variety of peaches, plums and pears have just tried themselves to see which could produce the most perfect fruit. Our apple crop has not been as good as last season but they lost a lot of their vitality by overloading last year. We won't have as much fruit next year even if a freeze doesn't get it as we have had this year because the trees will just not make any growth to produce fruit. We have had a good market for everything we could raise and have had rain just when we needed all year Right now we have had about four days too much rain. -ATO-

One of the most bragged of peaches this year is the old time J. H. Hale. I have so many better and surer bearers than the Hale that I had just about decided to quit propagating it at all. It's true the J. H. Hale did have some mighty fine peaches on it this year and a fairly big crop of them. However, in setting out an orchard we have to bear in mind more things than just the size of the fruit. Possibly we won't nave another crop of Hale peaches for five years. If it comes the slightest bit of cold weather after the last of February it will be sure to get the Hale peach crop. We had some trees of Early Rose this year that were just four years old and had as high as five bushels to the tree and they had already borne one crop of peaches the year before. You can always depend on an Early Rose. Tho' not very large they are sure to bear. And we find as the trees get older the larger the peaches grow. The Hale peaches should be large ones. They bear such few crops the trees have plenty of vitality. To my way of thinking the South Haven is one of the prettiest peaches we have.

INDIAN SUMMER.

The Indian summer days have come With skies of smoky gray, And drifting clouds become as flame, When daylight fades away.

The shimmering sapphire hills Are crowned with haze of light. And myriad flocking birds on high Give farewell cry, in flight.

The leaves assembled on the trees, Are orchestras wind blown; They pipe away with heart's delight, Till star-gemmed night has flown.

The autumn-dyed deep purple haze Lures heart of man to turn; Down mossy-trails, and forest ways Where sumac berries burn.

-JESSICA MOREHEAD YOUNG. HH

Jessica Morehead Young's poem, like Indian summer, lures us "down mossy trails and forest ways, where sumac berries burn". A beautiful picture as real as the time of year she describes, matching mood for mood, color for color, and fragrance for fragrance. We are glad to give the poem "Indian Summer" place of honor for the month of October-because of its accurate and lovely description of autumn days in Texas. Jessica Morehead Young's home is in Amarillo, Texas.

H H

At the first norther that howls about our ears, presaging winter, we reach for the covers, long for wholesome and fragrant things to eat and, with a tang in the air adding zest to the spirit as well as to the appetite, seek exciting and cheery things to do. .

H H

Our contributors meet every situation with their suggestions. we feel the cold nipping our toes and reddening our nose, we need no suggestions to pull up the cover, but Mrs. Frazier reminds mothers that the little tots aren't always able to do that. In our "Do You Knew That" column you will find her advice on how to keep the active infant well covered and warm all through the frosty night.

HH

What is most tempting to your palate when the first fire-log is lighted? Apples and more apples! That inimitable fruit is at its best when eaten raw in front of a roaring fire, or as apple butter spread in luscious thickness on hot biscuits. And not to forget apple pie. In other words, the apple enthusiast is in his glory. Contributors on this page have many varied suggestions in regard to this companion of winter nights, of roast lamb and rabbit pie, and of Hallowe-

HH

And the event in which we can best use our excess energy is Hallowe'en, in a hearty affair to climax October's tangy days. Spooky parties will be with us as long as there is Hallowe'en, for who would forego the pleasure, the fun of masquerading as witches, black cats and goblins, of playing games, of ducking Lo apples, chewing marshmallows on a string and rolling peanuts with your nose! And in spite of bad times in the past, in the present and in the future, children as well as adults, rich or poor, will in ist upon enjoying Hallowe'en So to get the thing in a nutshell, like a Hallowe'en fortune, Mrs. Frazier describes a community affair where everyone, young and old, depression-stricken and

prosperity-favored, is included in the fun. Any community may adopt her suggestion and make the event an annual observance like Armistice Day, May fetes and strawberry festi-

A new friend is added to our contributors of "knick-knacks" Daisy Brooking of Ewing, Indiana, decided to extend the hand of neighborliness to her Western and South-ern friends. We are anticipating contributors from all sections of the country, and our readers are waiting to partake of their cheer and their friendliness.

HH A COMMUNITY HALLOWE'EN CELEBRATION.

By Juliette Frazier.

Two years ago the members of the Woman's Civic Club in a certain community, hit upon a particularly happy idea to keep the older children out of mischief on Hallowe'en Eve.

They came to the conclusion that the spirit of co-operation which is proving so satisfactory in the business world, if applied to social afcarries out some plan by which the whole community may take part.

In every community, on Hallowe'en Eve there are some who are not fortunate enough to be numberd among those invited to some private social, and who have not the price to pay their way into some of the public gatherings. Yet they, too, want to have some fun. So they create their own fun-fun which often leads them into serious trouble.

In order to avoid this sort of malicious mischief, which too often masquerades under the name of "fun", he plans for a community celebration were carried out.

The leading men of the town willngly and gladly sponsored the festivities, and the expenses were defrayed by the business houses and he public spirited citizenry.

A big parade was the main feature f the festival-a parade wherein all he business houses took part, and herein every participant good hunoredly competed for a prize.

Young and old, vets, lodges, clubs, loy Scouts, Camp Fire Girls, autonobiles, horse drawn carriages, bicyfairs of the community would prov. les and doll buggies, ghosts, witch-

just as helpful, especially wherein it

es, goblins, clowns, fairies, impersonations of animals, all passed in both interesting and humorous pageantry before the judges.

Several blocks at the center of the town were roped off from the traffic, and after awarding the prizes, two bands provided continuous music for street dancing on the pavement. The ladies auxilaries of the various lodges did their part by serving hot coffee and doughnuts gratis to the revelers.

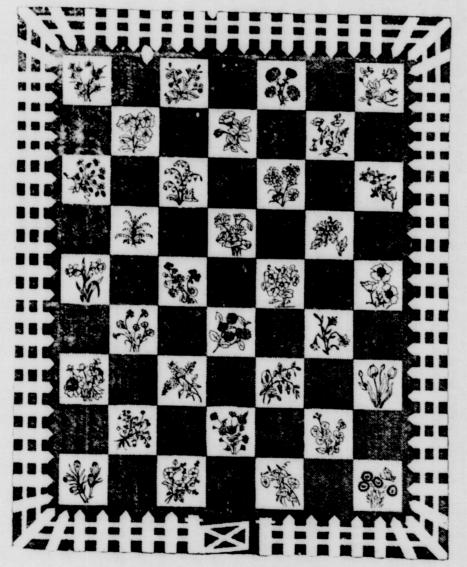

All the restaurants, lunch rooms and soda fountains were closed during the parade and opened again until midnight with special Hallowe'en

The merchants also entered into the spirit of things and vied with each other in Hallowe'en window trims. Homes displayed big Jack-O'-Lanterns on their doorsteps or in their windows. In fact the whole town and surrounding countryside took on a gala array in honor of Hecate, the

goddess of magic.

The first Community Hallowe'en celebration resulted in so much fun that last year it was repeated, with even greater success. And it is expected to be repeated this year, because it has proved that the old saying: "The more, the merrier", is true, that it stands to reason that there is much more fun in a community celebration than could possibly be found in some home where only a few have gathered to brave the perils of the evening.

Mother's Old Fashioned Flower Garden

The White Picket Fence that bordered Mother's Old Fashioned Flower Garden comes to life again in this quaint Quilt. 30 embroidered blocks, 3x9 inches, are used, while the patchwork picket fence border completes he quilt. CHAMBER OF COMMERCE BENEFIT SUPPER.

The Hondo Chamber of Commerce will give a benefit supper at 🔉 the Rath Building next to the Hondo State Bank on Saturday, Nov. 2nd. Supper will be served by the ladies of the town who are assisting the C. of C. Preparations will be made to accommodate the largest crowd ever to attend a similar event in Hondo. Chili, tamales and beans will form the main items on the menu. Supper will be served from five-thirty o'clock until seven-thirty.

The money raised from the supper will go to pay off the indebtedness on the Plaza Recreation Park, to help finance the buying of a new dump-groud site, and for incidental expenses of the C. of C.

Come out and support your local Chamber of Commerce organization.

(This space complimentary to the Chamber of Commerce.)

QUIHI NOTES.

But his wife looked back from behind him, and she became a pillar of salt. Gen. 19: 26.

For solid reasons the fleeing quartet, Lot and the three female members of his family, were enjoined, Look not behind, neither stay in the plain. The horrifying sight is apt to paralyze your mobility, the gathering gases and fumes will poison your system and kill. With reckless disregard, Lot's wife, for reasons of her own, demured and lagged, and paid with her life. She became a pillar of salt. And here is the first of that trio of mysterious happenings that so often is mocked and scorned, fumed and foamed at by a self-as suming horde of would-be criticsthe other two items being Baiaam's | * ass and Jonah's whale. Without go- | * we merely assert that the sources of all three narratives are above reproach, not so those critics, and all * three are backed up by no less an | * in life, but they fail to pull the * * authority than Christ himself, with- * trigger.-J. B. Lawrence. * out fear of gainsay by carpers and * * cavilers. So let them "cut the * * cackle". It would be bad enough if the main objective—the solving of the dition, it is making it increasingly difficult to ever bring back normal employment—because of the influence of a staggering debt and vastly increased taxes on the only source from which normal employment can come, industry. Many business enterprises are today doing more business than at any time since 1929-yet are earning no additional profits, because of the tax bills they must meet. The inevitable result is to frighten investors, divert money from productive to non-productive channels, such as tax-free government bonds-and keep unemployment at peak figures.

To remedy this situation governmental costs must be cut to the bone, and an aggressive budget-balancing program adopted. That is the course of real statesmanship—and it is the only course that can save America from eventual financial ruin.-Industrial News Review.

WHO OWES YOU A LIVING?

Millions of people are being educated in our country today to believe that someone owes them a living. The laws of nature do not seem to recognize this doctrine.

Just go out into prmitive country and see who owes who a living-you will soon find that your existence depends on your ingenuity and initia-

-Owlets-H. E. CLUB.

The H. E. Club met Wednesday afternoon in the auditorium for a regular meeting. The meeting was brought to order by Lela Grace Reily, the president, who then turned it over to the program committee.

First on the program was an interesting talk by Miss Stubbs on the "Purpose of the H. E. Club". The remainder of the program was as follows: Two violin solos rendered by Billy Merritt; a talk on "Premitive Homelife", by Ginger Fuselman and one on "Colonial Homelife" by Ivy Jean McCall. The program was brought to a conclusion with a piano duct by Frances Ruth Fly and Betty Jean Merriman.

The minutes were read by the Secretary, Evelyn Barnes, and the he third quarter was scoreless, old and new business was brought

EVEN HORSES BELIEVE "CONTOUR FARMING".

Even horses are "sold" on contems farming as recommended by the San Conservation Service for controlling water erosion. A Wisconsin farment writes that his horses find working the contour "easier". It does away with dragging heavy implements we and down hill.

Contour farming also does away with rows of cultivated crops running up and down hill-their open furrows an invitation to the little towrents that are likely to cut big gullies eventually and, in any event, carry off tons of top-soil.

Contour farming leaves furrown nearly level—at right angles to the slope of the land—each furrow & tiny terrace holding rainfall until at is absorbed into the soil, or forces it to creep away rather than running wild downhill. This Wisconsin farmser finds the idea of working "on the contour rather odd at first, but your get accustomed to it".

He likes terracing and strip cragping to retard runoff. The terraces, he repots, "aren't as bad as there look". And the strip crops love narrow plots of grass or hay same Supt. C. F. Schweers and Mrs. wiched in between long cultivated "more permanent pasture" on come land which always washes badly...

FINGER-CARLE.

A marriage of wide interest took place in Holy Cross Church, at 8:30 when Miss Bernice Carle, only daughter of Mr. and Mrs. R. R. Carle, became the bride of James C. Finger, son of Mr. and Mrs. L. J. Finger. The ceremony was performed preceding Nuptial Mass, Rev. Eugene Zuber officiating. The aisle was bordered with fern and begonias, while in the sanctuary, which was ship, and he is very nice. softly lighted by wax candles, there were baskets and altar vases holding queen's wreath, roses and fern.

The ushers were Lawrence Carle, Harold Nester, and Joe Finger. They entered singly, alternating with the him, he will sink the ship. bridesmaids, who wore floor-length gowns of dark-colored crepe with long sleeves, silver sandals, and black turbans, and carried colonial bouquets of bronze chrysanthemums. Miss Stella Finger was in violet, Miss Annette Rothe in olive green, and duroy suit, and the flower girl, Nor- bids is specifically reserved. ma Lee Finger, in a colonial frock 2tpd. of blue taffeta with poke bonnet to match, and carrying a colonial bouquet of pink roses.

The bride, given in marriage by her father, wore a beautiful gown of ivory satin-crepe made with a rolled collar and full sleeves shirred at the wrists and shoulders. The gored skirt extended into a train, which had appliqued flowers of the crepesatin. Her short tulle veil was caught to a fitted cap of braided satin and orange blossoms, fashioned with a face veil. Her bouquet was of white carnations and metallic flowers. She was met at the sanctuary steps by the groom and his best man, Francis Carle.

rollowing the ceremony, a reception was held on the lawn at the home of the bride's parents. At the center or the runch table was the wedding cake, a ring-shaped confection adorned with sugar spun flowers.

Mr. and Mrs. Finger left later in the day for a motor trip to Enid, Okiahoma, and South Bend, ind. For traveling the bride wore a suit of black wool with black accessories. The collar of the long fitted coat was edged with gray fur, and the overblouse was of rust crepe.

Both young people are graduates of local high schools, and the groom holds a position with the D'Hanis Brick and Tile Company. They will be at home after November 1st.

Out-of-town guests at the reception were Mr. and Mrs. Emmet Nester and Mrs. Charles Finger of Hondo, Mr. and Mrs. C. E. Martin and son of Pearcall, Mr. and Mrs. M. J. Finger and daughters of Skidmore. and Mrs. M. E. Knippa of Knippa.

CATHOLIC ACTION CLUB.

The Catholic Action Club held its meeting on Friday, October 11, 1935. The meeting was opened by a prayer led by the president, Miss Melvira Rothe. The different committees then made their reports. The members were urged to bring stamps to send to the missions. Two short plays were given by some of the members. With this the meeting ad-

CATHOLIC CHURCH HISTORY IN

At the Colonial Theatre Sunday, Oct. 27, there is being presented a motion picture of enthralling interest entitled "Through the Centuries" The picture embraces a history of the Catholic Church from the dawn of Christianity down to the present day, covering the world, and emphasizing that wherever Christianity began the work of improving the condition of non-Christian races the Catholic missionary was in the van.

In the early stages of the picture, the scenes are historical and portray the history of the church as it is recorded in the New Testament. In the final stages the Vatican is unfolded to view, the Holy Father, Plus Al. is frequently seen and often heard, The St. Anthony's Community and the art treasures of the headquarters of the Church of nome are spread on the silver screen. The Twenty-three members were present well-known actor, Pedro de Cordona, and one new member, Mrs. James whose voice is magnificent, speaks Braden, was admitted. Mrs. Ben for Our Savior at the beginning and

The Vatican City with its modern improvements is shown in all its grandeur. We see the Swiss guarda and the other military bodies connected with the Pope; great throngs of pilgrims and scenes depicting the glories of Rome. The opening of the Rihn residence into the Zuercher the radio station in Vatican City is shown, with His Holiness taking a prominent part. The F. F. A. boys were all out on their first fishing trip Friday night, down on the Hondo Creek. They Leroy Faseler accidentally got too id into the water while attending his lines. Of course Leroy had to dry out but that was easy by a big hot fire. The boys enjoy such fun.

The examination of the first six say they are going to work harder next six weeks as well as other subjects. The graduating class have received their rings, which are very pretty, and of which they are all very

The P. T. A. had its regular meeting last Wednesday evening. After the general routine of business a motion was made to have a party for all the school children on October

By The Director.

KARNS CAST AS FIGHTER IN LAUGH HIT.

Putting too much realism into his punch, Roscoe Karns injured his right hand during the filming of a boxing match scene. Karns, cast as a prize fighter in Paramount's "Two Fisted", now playing at the Colonial Theatre, was rehearsing a bout scene with Johnny Indrisano, former National Amateur middleweight, when he swung a vicious right hook squarely on Indrisano's head, pushing two knuckles out of place.

Lee Tracy, Gail Patrick and Kent Taylor are featured in the laugh prooking comedy romance of the Park Avenue adventures of a dumb pug and his smart cracking manager who are chumps at fighting but champs at romance. Breezy, sparkling comedy situations follow in rapid fire order when the two boys put a wealthy playboy into training, turn from battlers to butlers in his mansion, put on a boxing match for his society friends, and bring their benefactor's dishonest brother-in-law to

V-8 cars for 1936 were radio installed upon special order. ted States and seven in Can-dows.

gineering summarize the principal It is estimated effort required in improvements. There are no radical steering has been reduced more than changes. The 85-horse-power V-8 25 per cent, as a result of these imengine, of which more than 2,000,000 provements. are now in operation, is unaltered.

provements, one-improved steering gear shift lever. is aimed at greater ease and safety of operation. Two others tend to greater comfort. One is the use of new steel wheels which lessen the unsprung weight and thus provide greater riding comfort. The other welded to the rim, forming a single is an improved transmission using quiet helical gears-formerly used only in second and high speeds-in all forward speeds and reverses.

A new front-end treatment gives added distinction to the body lines. The hood is longer, extending gracefully over the attractive new radiator grille. With its vertical slots and more accentuated "Vee", as well as its smoothly rounded lower edge which blends with the streamlined curve of the inner portion of the fenders, the grille contributes a new note of smartness.

Fenders are streamlined, a wide inward flare giving them an imposing appearance. Louvres are of new design. Horns are now recessed in the fender aprons back of small round grilles beneath the streamlined headlamps.

The welded steel body is low and wide, with flowing rear quarter lines. Finish is a Ford-developed baked enamel. There are five body colors, Washington blue, gray Vineyard green, Cordoba tan, gunmetal and black, of which the first two are new. De luxe body types are available in any of the five colors, with fenders matching and wheels of new design in a harmonizing color. Cars without de luxe equipmet come in black or gunmetal, with fenders matching the body color and black wheels.

Thirteen body types are available, ten with de luxe appointments and three without. These are:

De Luxe: Three-window coupe, five-window coupe, roadster with rumble seat, phaeton, cabriolet with rumble seat, convertible sedan, Tudor sedan, Fordor sedan, Tudor touring sedan and Fordor touring sedan.

Without de luxe equipment: Fivewindow coupe, Tudor and Fordor se-

Interiors, especially luxurious in the de luxe types, reveal a distinctively modern treatment. The color motif is a rich gray, with which the taupe of the upholstery fabrics harmonizes. Seat cushions are deeply pillowed and set off with new piping. In de luxe types various uphoistery options are available. Recessed arm rests give added elbow room in the Fordor and Fordor touring se-

All instruments are of new design to conform to the modern effect of the new gray metallic pyroxylin instrumental panel. De luxe car panels are fitted with 100-mile speedometer, with trip mileage recorder; ammeter, water temperature indicator, electric fuel gage and electric oil gage, as well as cigar lighter, tilting ash tray and glove compartment. The ash tray may be removed and a Ford

THE NEW FORD V-8 FOR 1936

Why do we say The New Ford V-8 for 1936?

What is new about it?

Of course, the newest engine in the low-price car field is still the V-8 engine. Since Ford made it available to all car users (keeping it as economical as cars with fewer cylinders) the Ford V-8 has been the newest engine on the market, and remains the newest for 1936.

You may buy a car on minor "talking points"-some specially advertised feature "with the car thrown in"-but, after all, it is the engine you buy when you buy a car. Hence we put the engine first. Other new points about the car

make a long list.

Its lines are much more beautiful. The hood is longer and sweeps forward over the distinctive new radiator grille, giving the car a length and grace that are instantly impressive. The fenders are larger, with a wide flare. Horns are concealed behind circular grilles beneath the headlamps. New steel wheels.

Ford upholstery - always of sterling quality and excellent taste-is rich and enduring. The appointments of the car have a new touch of refinement. There is no question about the increased beauty of the Ford V-8 for 1936.

In more practical matters, many improvements have been made-Steering is made easier by a new steering gear ratio. The cooling system circulates 51/2 gallons of water through a new, larger radiator. Natural thermosyphon action is assisted by two centrifugal water pumps. New style hood louvres permit a rapid air-flow around the engine.

Easier, quieter shifting of Ford gears -The gear shift lever now travels a shorter distance.

The two qualities you want in brakes - Brakes that stop the car with ease and certainty. Ford Super-Safety Brakes of the long-tested, fool-proof, mechanical design.

Safety - as always - in the electrically welded genuine steel body. Safety Glass all around at no extra cost. Hundreds have written grateful letters because this glass has protected the safety of their families.

A car you can drive without strain all day, if you like, in city or country. Steady, holds the road, responds to the

driver's touch like a well-trained horse. You don't have to "push" or "fight" the Ford V-8 - driver and car easily get on terms of good understanding with

An engine has much to do with the roominess of a car. Very much indeed. A long engine uses up car space. The compact V-8 engine permits much of the ordinary engine space to be used by passengers.

It really is a great car in every way, this 1936 Ford V-8 - the finest, safest, most dependable Ford car ever built. Now on display by Ford dealers.

ABOUT THE ORCHARD

The attached is a talk made by J. That indicates it may be a good one men's Association at Austin.

If I make this public speech it will be about the second one I ever made in my life. I am handicapped by about two things. In the first place, I cannot memorize anything, and in the second place my legs go weak when I try to make a public speech. I remember when I was a little boy going to my first school, I put in two weeks trying to memorize "Mary had a little lamb". When I got up to say that speech it seemed my trousers began to get too big for me. Pretty soon they felt so big that they hardy touched anywhere and in another moment they were as big as an army baloon and the "Mary had a little lamb" part had deserted my memory entirely.

I cannot discuss new varieties very much but can tell you about the ones that are new with me.

I believe I will start on the apple first as they are one of our most profitable fruits up in our country. To be brief, the King David is far ahead of all other apples as a money erop in Erath County. It is intensely red. Does not blotch so badly and is fine for cooking and fine for eating fresh when we allow them to get ripe. But we sell them all for cooking before they really get ripe. Our next best apple is one called Smoke House. It is not a high colored apple but bears abundantly. The Delicious does well in Erath County.

The apples are good to eat by the time they are grown and when fully ripe are very excellent and bring good prices on the market. The two new apples, Golden Delicious and Rich Red or Star King, have been fully tried out here on my place. The Star King is about three weeks earlier than the common Delicious. It begins to bear earlier than the Delicapples get smaller. The Golden Delicious is just not the right color is all. It is not a good cooker and it is hard to sell yellow apples for eatbeing set. results with it but I cannot get good fruit before he can tell just what is apple in the world because he has House. This holds good all along the

A man with an Elberta peach orchard may think Elberta is the finest of all peaches because he has never tried a kind like Golden Jubilee or Hale Haven. And there is Golden Beauty. It is a long peach, yellow, apricot flavor. Then the Fair is a tolerable new peach. Some people call this the very best of all peaches, but I get letters from others who are my Wheeler orchard up and planting to the South Haven because I have found the South Haven is better. The Golden Jubilee because the Golpractically every year. would be too small were it not for the fact that it comes in exactly when there are no other peaches and sells well. You have heard how the hot cakes sold, the Early Rose sells better.

And after Early Rose comes the South Haven. The best pench of that season I have so far found. It may never haul real well but it makes up in being good looking, fine for cooking. The The Hale Haven is said to be a cross between the J. H. Hale and the South Haven. It looks just not bother. Speaking of the sharp exactly like the J. H. Hale and comes in two weeks before the Elberta. It will pollenate itself making it one the borers. My little boy says anecof our finest peaches.

E. Fitzgerald at the Texas Nursery- and I feel sure it will be if it does not develop some vice.

Many years ago I get a bunch of trees from the Federal government to try out. Among them was a peach said to come from New Zealand. It looks like an Elberta except it is lighter flesh. It may be a little smaller than Elberta but it is one of the surest of all peaches to bear. have a plum that came at that time, heart-shaped plum very much like Waneta, but one of the most beautiful of all plums and the highest quality. It had no name, just a number and I have forgotten the number. It is going to be a rival of the Bruce and America.

I do not have any new grapes but in pears I have the Douglas, likely the coming pear. It is inclined to overbear and will have to be thinned more than some people will want to thin it. frees in the nursery row will bear. A tree set out in the field will bear the second year set. It is a fine preserving fruit and pears will get ripe on the tree and are nearly as good as Bartlett. Some one has asked about the Lincoln pear. It is pretty good if the pears would not blow off the trees. The stems are long and they just cannot resist the hard wind. This is about all the new fruits I have time to mention though I have tried out dozens. Funny to say the Honey and other Southern varieties of peaches are nearly a sure crop with me but the curculio usually gets the crop.

This season has not been a real test season for all kinds of fruit have done exceptionally well.

-ATO-

This is the time when the tree borer gets busy and thousands of people want to know what to do about him. The borer is like many other bugs sent to destroy and help destroy ious, but as the trees get older the the weakly. If a tree is growing on Bermuda or is suffering from drouth this sawyer, as they are often called, gets in his work. The tree borer is the child of a long bug. This bug has ing raw. It bears two years after a couple of what we would call whisk-Some are reporting good ers for short but the bug-ologist cans them antaena. He says the bugs use results. One has to try all kinds of them to feel with, but how the socalled bugologist can tell just what a the best. A man who is growing bug does feel with is more than I Winesap may think he has the best can figure out unless the bug man in some way has lived as a bug in ages never tried out such a kind as Smoke past. They often say this bug is gray but I have found them in several colors. They are nearly an inch long and slim and you can often find them sticking on the bark of a lombardy poplar or cottonwood. If you have a lot of these trees in your yard I would bet that you could find some Jubilee. It comes in just before Fair of those whiskered gentlemen right now. They like lombardys, it seems, better than any other tree, but this is just a guess on my part since I was not a bug in ages past and cannot tell about what they really do digging it up just like I am digging like. This bug in most cases lays his eggs right at the ground. But if the tree is sunburned he will lay them along any distance from the ground. You can trace this bug around with den Jubilee will bear and is better, a pocket knife. He works on the Then just after Wheeler we have the southwest side of the tree as long as ting out an orchard we have to bear will go on the north side. But he seems to not like real healthy wood. The remedy is to keep the wood healthy. If you cannot do this then the south side of the tree can be washed with lime and a little, just a little, kresso added. In case the worm is already in the tree, a sharp wire will dislodge him. I knew one man who nailed thin boards on the southwest side of his trees where they were exposed to the sun. This keeps the sun from nearly blistering the trunk of the tree and the borers did wire, nature has provided a kind of wasp with a sharp anecdote to reach dote. He thinks it is more polite to June Bud trees set this spring bore say anecdote than to say tail. He as many us five big peaches this year, | does not get the difference in the

meaning but that is all right. One wonders of nature is how this wasp can tell where the borer is under the bark of the tree. But men who have watched them say they never make a mistake. In some way they thrust their tails down through the bark and into the worm. Then they deposit an egg in the worm. In a few weeks the borer turns out to be a wasp instead of a bug as his mother intended him to be. Anyhow, if a man could kill all the bugs in the world with one stroke he would likely also kill all the people. For all these things are mutually dependent on each other. The borer turns the useless wood into small powder. This wood becomes fertilizer for oth-Termites eat fence posts er plants. and wood on top the ground and carry it deep into the ground to make soil for other plants to grow in. It is a constant round of nature, one plant or animal tears down so that another plant or animal can live. -ATO-

A few days ago I had a man visit the nursery from near Fort Worth. During the course of his visit we discussed berry plants. He said that he made more off of his berry plants than anything he had this past summer. Only had a row or two but had kept them pruned and cultivated good the summer and fall before. Many growers do not know how to prune berry plants however, it seems that this man did. He also knew what was the best berry as when I asked him what berry he liked best he said so far the Early Wonder had proved to be unequaled. All books that you read on pruning berry vines say cut out the old wood after they bear in the spring. But this wood is not yet dead and it injures the vitality of the vine to cut it out at this time of the year. Also this old wood forms a brace for the plant and keeps the wind from whipping it around in the summer time. When winter cames this old wood is dead and nearly rotted. You can then take a long stiff wire with a hook on the end, somewhat like you fix to catch chickens with, and reach in there and pull out all the old wood with the wire. I never cut any of the green wood out. We are just ending one of the best fruit years we have had in the past ten in this section. It seems that every variety of peaches, plums and pears have just tried themselves to see which could produce the most perfect fruit. Our apple crop has not been as good as last season but they lost a lot of their vitality by overloading last year. We won't have as much fruit next year even if a freeze doesn't get it as we have had this year because the trees will just not make any growth to produce fruit. We have had a good market for everything we could raise and have had rain just when we needed all year Right now we have had about four days too much rain, ATO-

One of the most bragged of peaches this year is the old time J. H. Hale. I have so many better and surer bearers than the Hale that I had just about decided to quit propagating it at all. It's true the J. H. Hale did have some mighty fine peaches on it this year and a fairly big crop of them. However, in set-Early Rose. This will bear a big the scalded bark holds out, then he in mind more things than just the size of the fruit. Possibly we won't have another crop of Hale peaches for five years. If it comes the slightest bit of cold weather after the last of February it will be sure to get the Hale peach crop. We had some trees of Early Rose this year that were just four years old and had as high as five bushels to the tree and they had already borne one crop of peaches the year before. You can always depend on an Early Rose. Tho' not very large they are sure to bear. And we find as the trees get older the larger the peaches grow. The Hale peaches should be large ones. They bear such few crops the trees have plenty of vitality. To my way of thinking the South Haven is one of the prettiest peaches we have,

INDIAN SUMMER.

The Indian summer days have come With skies of smoky gray, And drifting clouds become as flame. When daylight fades away.

The shimmering sapphire hills Are crowned with haze of light, And myriad flocking birds on high Give farewell cry, in flight.

The leaves assembled on the trees, Are orchestras wind blown; They pipe away with heart's delight, Till star-gemmed night has flown.

The autumn-dyed deep purple haze Lures heart of man to turn; Down mossy-trails, and forest ways Where sumac berries burn.

- JESSICA MOREHEAD YOUNG. HH

Jessica Morehead Young's poem, like Indian summer, lures us "down mossy trails and forest ways, where sumac berries burn". A beautiful picture as real as the time of year she describes, matching mood for mood, color for color, and fragrance for fragrance. We are glad to give the poem "Indian Summer" place of honor for the month of October-because of its accurate and lovely description of autumn days in Texas. Jessica Morehead Young's home is in Amarillo, Texas.

H ii

At the first norther that howls about our ears, presaging winter, we reach for the covers, long for wholesome and fragrant things to eat and, with a tang in the air adding zest to the spirit as well as to the appetite, seek exciting and cheery things to do. .

H H

Our contributors meet every situation with their suggestions. When we feel the cold nipping our toes and reddening our nose, we need no suggestions to pull up the cover, but Mrs. Frazier reminds mothers that the little tots aren't always able to do that. In our "Do You Knew That" column you will find her advice on how to keep the active infant well covered and warm all through the frosty night.

НН

What is most tempting to your palate when the first fire-log is lighted? Apples and more apples! That inimitable fruit is at its best when eaten raw in front of a roaring fire, or as apple butter spread in luscious thickness on hot biscuits. And not to forget apple pie. In other words, the apple enthusiast is in his glory. Contributors on this page have many varied suggestions in regard to this companion of winter nights, of roast lamb and rabbit pie, and of Hallowe-

HH

And the event in which we can best use our excess energy is Hallowe'en, in a hearty affair to climax October's tangy days. Spooky parties will be with us as long as there is Hallowe'en, for who would forego the pleasure, the fun of masquerading as witches, black cats and goblins, of playing games, of ducking pples, chewing marshmallows on a strong and rolling peanuts with your nose! And in spite of bad times in the past, in the present and in the future, children as well as adults, rich or poor, will in ist upon enjoying Hallowe'en So to get the thing in a nutshell, like a Hallowe'en fortune, Mrs. Frazier describes a community affair where everyone, young and old, depression-stricken and

prosperity-favored, is included in the just as helpful, especially wherein it fun. Any community may adopt her suggestion and make the event an annual observance like Armistice Day, May fetes and strawberry festi-

HH

A new friend is added to our con-ibutors of "knick-knacks". Mrs. tributors of "knick-knacks". Daisy Brooking of Ewing, Indiana, decided to extend the hand of neighborliness to her Western and South-ern friends. We are anticipating contributors from all sections of the country, and our readers are waiting to partake of their cheer and their friendliness.

HH A COMMUNITY HALLOWE'EN CELEBRATION.

By Juliette Frazier.

Two years ago the members of the Woman's Civic Club in a certain community, hit upon a particularly happy idea to keep the older children out of mischief on Hallowe'en Eve.

They came to the conclusion that the spirit of co-operation which is proving so satisfactory in the business world, if applied to social afcarries out some plan by which the whole community may take part.

In every community, on Hallowe'en Eve there are some who are not fortunate enough to be numberd among those invited to some private social, and who have not the price to pay their way into some of the public gatherings. Yet they, too, want to have some fun. So they create their own fun-fun which often leads them into serious trouble.

In order to avoid this sort of malicious mischief, which too often masquerades under the name of "fun", he plans for a community celebration were carried out.

The leading men of the town willngly and gladly sponsored the festivities, and the expenses were defrayed by the business houses and he public spirited citizenry.

A big parade was the main feature f the festival-a parade wherein all he business houses took part, and herein every participant good hunoredly competed for a prize.

Young and old, vets, lodges, clubs, loy Scouts, Camp Fire Girls, autoaobiles, horse drawn carriages, bicyfairs of the community would prov. les and doll buggies, ghosts, witch-

es, goblins, clowns, fairies, impersonations of animals, all passed in both interesting and humorous pageantry before the judges.

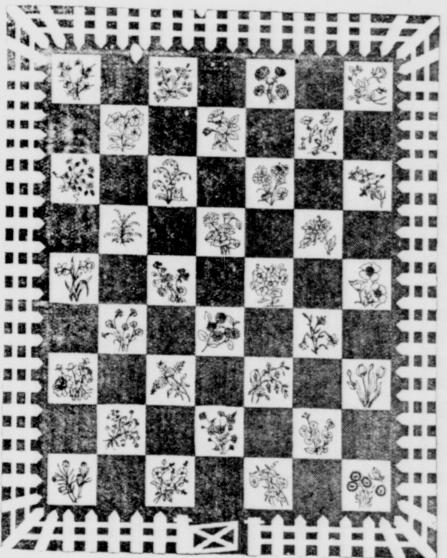

Several blocks at the center of the town were roped off from the traffic, and after awarding the prizes, two bands provided continuous music for street dancing on the pavement. The ladies auxilaries of the various lodges did their part by serving hot coffee and doughnuts gratis to the revelers.

All the restaurants, lunch rooms and soda fountains were closed during the parade and opened again until midnight with special Hallowe'en menu.

The merchants also entered into the spirit of things and vied with each other in Hallowe'en window trims. Homes displayed big Jack-O'-Lanterns on their doorsteps or in their windows. In fact the whole town and surrounding countryside took on a gala array in honor of Hecate, the goddess of magic.

The first Community Hallowe'en celebration resulted in so much fun that last year it was repeated, with even greater success. And it is expected to be repeated this year, because it has proved that the old saying: The more, the merrier", is true, that it stands to reason that there is much more fun in a community celebration than could possibly be found in some home where only a few have gathered to brave the perils of the evening.

Mother's Old Fashioned Flower Garden

The White Picket Fence that bordered Mother's Old Fashioned Flower Garden comes to life again in this quaint Quilt. 30 embroidered blocks, 3x9 inches, are used, while the patchwork picket fence border completes he quilt. This is an exclusive Multrapat Transfer Design, four designs are included on each sheet. 8 sheets make the complete set of 32 blocks, ach one a different floral design.

The cutting guide for the Picket Fence Border and Quilting design for he plain blocks is 10c. Order Border No. 810. Multrapat Transfer Patterns, our different designs, 9x9 inches, on a sheet, 10c each, or all eight sheets

Multrapat Transfer Patterns for pillow cases or dresser scarf to match quilt, 10c each.

Send order, stating pattern wanted, and coin to Fletcher's Farming, Needleart Department, 609 South Paulina Street, Chicago, Illinois.

н н DO YOU KNOW THAT-

A pinch of salt added to applebutter improves the flavor?-MRS. DAISY BROOKING, Ewing, Indiana,

Scorch stains can be removed from white silk with bicorbonate of soda mixed to a past with cold water and applied?-ELLIE WILCOX BURT, Artella Grove, Citronelle, Alabama. You should never throw away the

water in which you have washed meat, if you have plants, but use it to water them? It makes especially fine blossoms on your geraniums. And a teaspoon of castor oil poured on the soil at the roots of your fern or palms makes them grow like magic.—ELLIE WILCOX BURT, Artella Grove, Citronelle, Alabama.

A child positively cannot kick the bed-covers off at night if you will use this method of fastening them? Sew two strong snap clothes-pins to two pieces of elastic, each of which is a little less than one-half yard in length. Sew the other ends of the elastic around the rods on the head of the child's bed. When you tuck the little one in at night, snap the clothes-pins on the covers. clothes-pins cannot tear the bedding and the elastic gives enough to allow the little sleeper comfort.—MRS. JULIETTE FRAZIER, Cornelius, Cornelius. Oregon.

To turn out a pudding boiled in a basin, hold it a few minutes in cold water? This will prevent its sticking to the cloth .- MRS. MARY L. BALLEW, Hollywood, Arkansas.

A handful of common salt thrown into a hot bath relieves fatigue, and often helps to break up or prevent a cold?-MRS. MARY L. BALLEW, Hollywood, Arkansas.

After peeling apples, if you immediately wash your hands in clear water, omitting the use of soap, you will never again be troubled with apple stains on the hands?-MRS. JULI-ETTE FRAZIER, Cornelius, Oregon.

Russet apples will not shrivel all winter if kept in a dry, cool place, (Continued on Page 12.)

FINGER-CARLE.

Tuesday morning, October 22, 1935, Ethel Rothe, and the hostess, Miss when Miss Bernice Carle, only Koch. daughter of Mr. and Mrs. R. R. Carle, became the bride of James C. Finger, son of Mr. and Mrs. L. J. Finger. The ceremony was performed preceding Nuptial Mass, Rev. Eugene Zuber officiating. The aisle was bordered with fern and begonias, while in the sanctuary, which was softly lighted by wax candles, there were baskets and altar vases holding queen's wreath, roses and fern.

The ushers were Lawrence Carle. entered singly, alternating with the him, he will sink the ship. bridesmaids, who wore floor-length gowns of dark-colored crepe with long sleeves, silver sandals, and black turbans, and carried colonial bouquets of bronze chrysanthemums. Miss Stella Finger was in violet, Miss Annette Rothe in olive green, and duroy suit, and the flower girl, Nor- bids is specifically reserved. ma Lee Finger, in a colonial frock 2tpd. of blue taffeta with poke bonnet to match, and carrying a colonial bou-

The bride, given in marriage by her father, wore a beculiful gown of ivory satin-crepe made with a rolled wrists and shoulders. The gored skirt extended into a train, which had appliqued flowers of the crepesatin. Her short tulle veil was eaught to a fitted cap of braided satin and orange blossoms, fashioned with a face veil. Her bouquet was of white carnations and metallic flowers. She was met at the sanctuary steps by the groom and his best man, crancis Carle,

Following the ceremony, a reception was held on the lawn at the home of the bride's parents. At the center of the funch table was the wedding cake, a ring-shaped confection adorned with sugar spun flowers.

Mr. and Mrs. Finger left later in the day for a motor trip to Enid, Okiahoma, and South Bend, Ind. For traveling the bride were a suit of black wool with black accessories. The collar of the long fitted coat was edged with gray fur, and the overblouse was of rust crepe.

Both young people are graduates of local high schools, and the groom holds a position with the D'Hanis Brick and Tile Company. They will be at home after November 1st.

Out-of-town guests at the recep tion were Mr. and Mrs. Emmet Nester and Mrs. Charles Finger of Hondo, Mr. and Mrs. C. E. Martin and son of Pear all, Mr. and Mrs. M. J. Finger and daughters of Skidmore, and Mrs. M. E. Knippa of Knippa.

CATHOLIC ACTION CLUB.

The Catholic Action Club held its meeting on Friday, October 11, 1935. The meeting was opened by a prayer led by the president, Miss Melvira Rothe. The different committees then made their reports. The members were urged to bring stamps to send to the missions. Two short plays were given by some of the members. With this the meeting ad-

"PLAIN JANE" SCORES SUCCESS.

The three-act farce, "Plain Jane" presented by the Parish Players under the direction of W. E. Albrecht Sunday evening, was a success. The cast included Ursie Lee Rock, Sara Rothe, Lorine Zinsmeyer, Ethel Rothe, Sarah Koch, Stella Finger, David Albrecht, Martin Ney, Thomas Finger, Wilfred Fohn, and Hilmar J. Koch. A large audience enjoyed the

CATHOLIC CHURCH HISTORY IN FILM. At the Colonial Theatre Sunday,

Oct. 27, there is being presented a motion picture of enthralling interest entitled "Through the Centuries The picture embraces a history of the Catholic Church from the dawn of Christianity down to the present day, covering the world, and emphasizing that wherever Christianity began the work of improving the condition of non-Christian races the Catholic missionary was in the van.

In the early stages of the picture, the scenes are historical and portray the history of the church as it is recorded in the New Testament. In the final stages the Vatican is unfolded to view, the Holy Father, Plus Al,

A HEARTY WELCOME TO ALL.

... but, after all is said and done, it's the cigarette itself that counts ... the question is, does it suit you?

low, when it comes to a cigarette that will suit you ... you want to think whether it's mild, you want to think about the taste

> That Chesterfields are milder and taste better is no accident . . .

The farmer who grows the tobacco, the warehouseman who sells it at auction to the highest bidder, every man who knows about leaf tobacco will tell you that it takes mild, ripe tobaccos to make a good cigarette.

In making Chesterfields we use mild ripe home-grown and Turkish tobaccos.

Outstanding
.. for mildness .. for better taste
